Fiscal Estimate Narratives

DNR 6/6/2009

LRB Number	09-2901/1	Introduction Number	AB-0299	Estimate Type	Original
Description					
Products containing mercury and granting rule-making authority					

Assumptions Used in Arriving at Fiscal Estimate

Bill Summary: This bill regulates the sale of certain products to which mercury has been added during formulation or manufacture (mercury-added products) by prohibiting the sale of these mercury-added products, with some exceptions. The bill also prohibits the use of mercury and mercury-added products in schools.

Fiscal Impact: This bill has no state or local government fiscal impact. The bill prohibits the sale and distribution of new mercury products for which equivalent non-mercury products are already available at similar cost. Therefore, consumers will see little if any costs resulting from this legislation. The only mercury-added products in use which will be eliminated under this proposed legislation is for mercury products in schools. These products would need to be collected and recycled. However, mercury-added products are already believed to have been eliminated from most Wisconsin classrooms.

Because mercury product substitution has already occurred for many of the products identified in the bill, the Department does not plan extensive additional public outreach for this legislation. Outreach will be accomplished by updating educational materials already provided to the public as part of the Department's ongoing mercury reduction activities. The Department is required to process requests for exemptions to this legislation, but such requests are expected to be few, if any. The need to adopt an administrative rule for processing exemptions does not seem likely at this time; although the authority for rule making provided in the legislation will be helpful if this assumption proves incorrect.

No adjustments to the Department organizational structure is necessary as a result of this legislation. No impact on Department information management systems will occur because of this legislation. No additional staff positions are needed to implement this bill.

Long-Range Fiscal Implications

By prohibiting the sale or distribution of certain mercury products, this bill should reduce the consumer, local government, and state government costs for mercury product waste management in the future.
